

Kangning (Ken) Huang

Assistant Professor of Environmental Studies
New York University Shanghai

kangning.huang@nyu.edu · [Google Scholar](#) · [GitHub](#) · [Website](#)

EMPLOYMENT

2022.9–present Assistant Professor of Environmental Studies, NYU Shanghai
2022.1–2022.8 Visiting Assistant Professor Faculty Fellow, NYU New York
2020.1–2021.12 ASP Postdoctoral Fellow, National Center for Atmospheric Research (NCAR)

EDUCATION

2020 Ph.D., Forestry and Environmental Studies, Yale University, School of the Environment
2014 M.S., Cartography and Geographic Information System, Sun Yat-sen University
2011 B.S., Geographic Information System, Sun Yat-sen University

RESEARCH INTERESTS

Environmental impact from urbanization and climate change; Future urbanization and its interaction with climate change; Urban climate impact assessment and reduction.

AWARDS

2020 NCAR Advanced Study Program Postdoctoral Fellowship
2017 NASA Earth and Space Science Fellowship
2012 P. R. China National Graduate Scholarship

GRANTS

Active / Completed

2026–2028 “Boom or bust: accessibility tipping point underlying divergent urban transitions in China.” NYU Arts & Science Fund for Research on China (\$50,000). Co-PI with Mingzhen Lu.
2024–2026 “Mapping the Mismatch: The Urbanization of the Built Environment Versus People in Modern China.” NYU Arts & Science Fund for Research on China (\$50,000).
2022–2025 “Maximizing Urban Climate Under Resource Constraints: An International, Interdisciplinary Approach.” Shanghai Leading Talents Program, Distinguished Young Scholars, Shanghai Municipal Government (~\$100,000).
2022–2023 “Future Heat Extremes in China’s Urban Slums: Projections and Mitigations.” Google Award for Inclusion Research program (\$60,000).
2022–2023 “Climate trade-offs in future urban growth: should cities sprawl or density?” NYU Climate Change Initiative Seed Grants (\$10,000).
2017–2019 “Modeling the water requirement for urban heat island mitigation with multi-sensor and multi-temporal remote sensing data.” NASA Earth and Space Science Fellowship (NESSF) Program (\$120,000).
2017–2018 “The compound heat extreme in China from the urban heat island effect and climate change.” Yale Tropical Resources Institute Fellowship, [Yale Hixon Fellowship Grant](#), and Yale Institute for Biospheric Studies Doctoral Pilot Grant (\$16,400).

Declined

- 2025** “Integrating blue and green infrastructure to promote urban climate resilience in compound drought-heatwave.” National Science Foundation of China.
- 2024** “Digital intervention for mental health in compact, low-carbon urban environments.” China Medical Board.
- 2023** “The water limits to climate adaptation by urban greening.” Amazon Research Award.

PRESENTATIONS AND CONFERENCES

Invited Talks

- 2025 “AI for Urban Sustainability: Understanding, Simulating, and Managing Cities.” ADIA Lab “Sustainable AI” Summer School, Fields Institute, Shanghai.
- 2025 “AI for Urban Sustainability.” Urban Science and Sustainability Summer School, CAS Institute of Urban Environment, Xiamen.
- 2024 “Which Chinese Cities are Overbuilt? Insights from Urban Complexity Science.” China Crossroads, Shanghai; The Chinese University of Hong Kong.

- 2024 “From Sources of Prosperity to Potential Challenges: The Influences of Rivers and Seas for Shanghai and New York.” Conference on Common Ideals and Common Future, Shanghai.
- 2023 “The applications of spatial analysis in urban and climate health research.” Chinese Preventive Medicine Association, Qionghai, Hainan.
- 2023 “Climate trade-offs in urbanization in China and beyond.” China Crossroads, Shanghai.
- 2019 “Future global urban land expansion and limits of urban adaptations.” Hotspot Cities Symposium, University of Pennsylvania.
- 2017 “Forecasting urban land expansion and heat island intensification globally through 2050.” Silk Road Innovation Forum, Xi'an, China.
- 2017 “Urbanization, climate adaptation and resource constraints.” The Hong Kong Polytechnic University.

Sessions Organized

- 2018 “Building resilience to natural hazards by utilizing citizen science and understanding compound hazards.” AGU Fall Meeting, Washington, DC.

Selected Oral Presentations

- 2025 “Sponge Cities After a Decade.” Asia Oceania Geosciences Society (AOGS), Singapore.
- 2025 “Declining urban density attenuates rising population exposure to surface heat extremes.” International Conference of Geoinformatics, Jiaozhuo, China.
- 2024 “Mapping the mismatch: The urbanization of the built environment versus people in modern China.” AGU Fall Meeting, Washington, DC.
- 2024 “The urban mosaic of heat exposure.” IEEE IGARSS, Athens, Greece.
- 2023 “Taller or denser buildings? Effects of urban forms on heat island extremes.” AGU Fall Meeting, San Francisco.
- 2019 “Urban expansion neutralizes heatwave-risk reduction by socioeconomic development.” 16th International Conference on Urban Health, Xiamen.
- 2018 “Escalating heat stress by mid-century from large-scale urban land expansion.” AGU Fall Meeting, Washington, DC.
- 2018 “Global forecasts of urban land expansion and heat island intensification by 2050.” International Conference on Upscaling Urban Solutions, Berlin.
- 2018 “A spatial lag model for global urban heat island.” AAG Annual Meeting, New Orleans.
- 2016 “Contributions to augmented compound urban temperature extreme (ACUTE).” Urban Transitions Global Summit, Shanghai.
- 2013 “Improving un-gauged hydrological modeling by assimilating GRACE Terrestrial Water Storage data.” AGU Fall Meeting, San Francisco.
- 2012 “An artificial immune system for multi-objective land-use allocation.” International Conference on GeoInformatics, Hong Kong.

TEACHING EXPERIENCE

- 2022–2025** **Instructor**, “Environmental System Science,” [SOCS-SHU 204](#), NYU Shanghai.
- 2022–2025** **Instructor**, “Cities at a Crossroads: Environmental Challenges and Opportunities in Cities,” [SOCS-SHU 208](#), NYU Shanghai.
- 2022** **Guest lecturer**, “Climate and Life,” ENVST-UA 385, NYU New York.
- 2021** **Guest lecturer**, “Environmental Studies Senior Seminar,” ENVST-UA 900, NYU New York.
- 2020** **Guest lecturer**, “Natural and Socioeconomic Factors Shaping Environmental Health,” [One Health Training](#), Animal Dialogue.
- 2020** **Instructor**, “Introduction to Google Earth Engine,” [Research Application Laboratory](#), NCAR.

2015–2017 Teaching Assistant, “Modeling Geographic Objects,” Yale School of Forestry and Environmental Studies. Instructor: C. Dana Tomlin.

SERVICE

Journal Manuscript Review

Environmental Research Letters; Sustainable Cities and Society; International Journal of Geographical Information Science; Nature Geoscience; Nature Climate Change; Nature Cities; Journal of Geophysical Research—Atmospheres; npj Urban Sustainability; npj Environmental Social Science; MDPI: Land; Urban Climate; Frontiers of Earth Science.

Journal Editorship

Guest editor, *Atmosphere*, Special Issue “Hazards, Urbanization, and Climate Change.”

Report Review

- *Heat Wave Guide for Cities*. 2019. Red Cross Red Crescent Climate Centre.
- *Guide for Urban Integrated Hydro-Meteorological, Climate and Environmental Services*. 2018. World Meteorology Organization.

Departmental Service

- Faculty Lunchtime Speaker Seminar Organizer, NYU Shanghai.
- Program Assessment Committee, NYU Shanghai, Area of Social Science.
- Faculty Continuous Contract Hiring Committee, NYU Shanghai, Area of Social Science.
- Faculty Continuous Contract Renewal Committee, NYU Shanghai, Area of Social Science.
- Developer of [Cambodian Genocide Program Geographic Database](#), Yale University Library.
- Member of [Professional Development Committee](#), NCAR Advanced Study Program.

MEDIA COVERAGE

- “Study: Swath of Natural Habitat Larger Than the UK Will Be Urbanized By 2030.” *Texas A&M Today*, 2020-01-30.
- “Urban Heat Islands Mean Warming Will Be Worse in Cities.” *Scientific American / E&E News*, 2019-11-21.
- “For Some Urban Areas, Warming Climate is Only Half the Threat.” *Yale News / Science Daily*, 2019-11-14.
- “Respite from the Urban Heat Island? Study Eyes Costs of Irrigation as Remedy.” *Yale News*, 2017-07-20.

PROFESSIONAL SKILLS

Land Use / Cover Change Modeling; Hydrometeorological Modeling; Spatial Data Analysis; Nonlinear Optimization; Data Assimilation; Image Processing.

Software: ArcGIS, QGIS, Google Earth Engine, ENVI, R, MATLAB, NCL, Fortran, Python.

LANGUAGES

English (fluent); Mandarin (native); Cantonese (native).

PROFESSIONAL MEMBERSHIP

American Geophysical Union.
